

Assignment 2

Saagar Parikh
CGT 262

Stage 1: Problem Identification

Housing Style

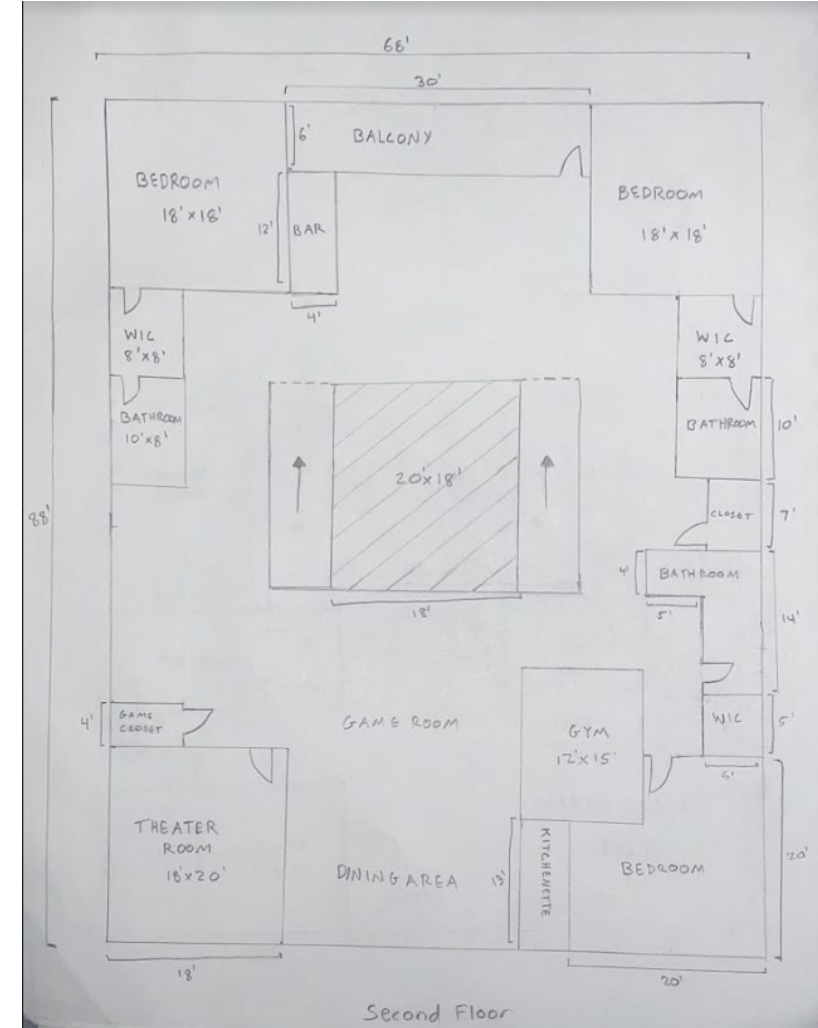

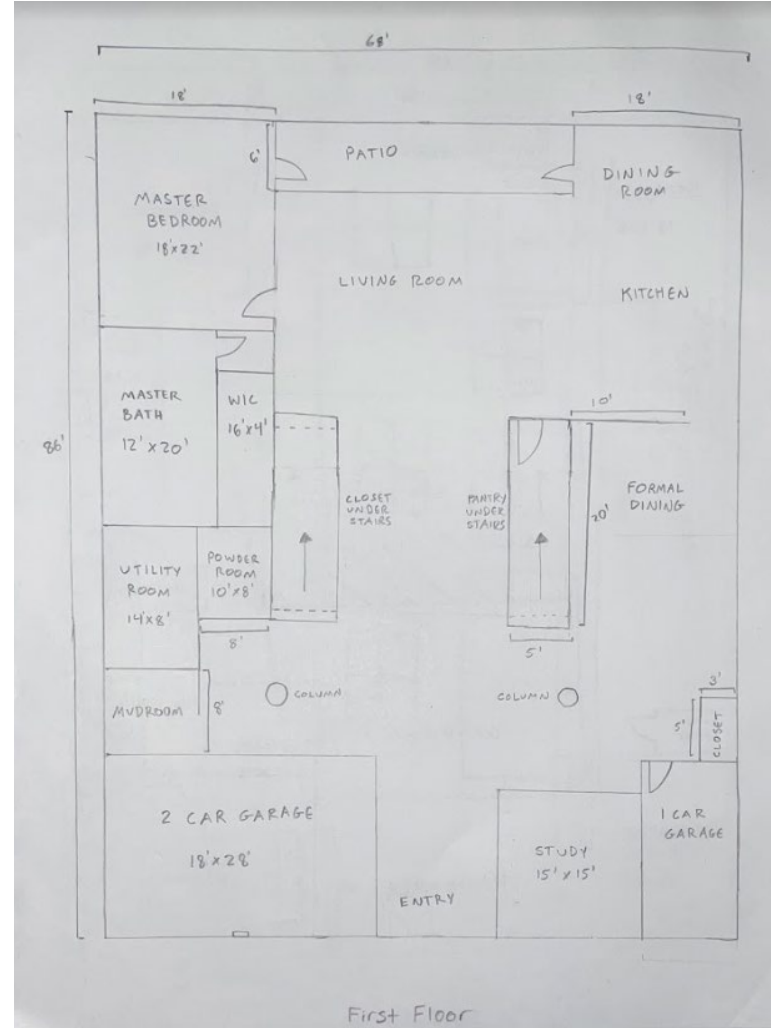

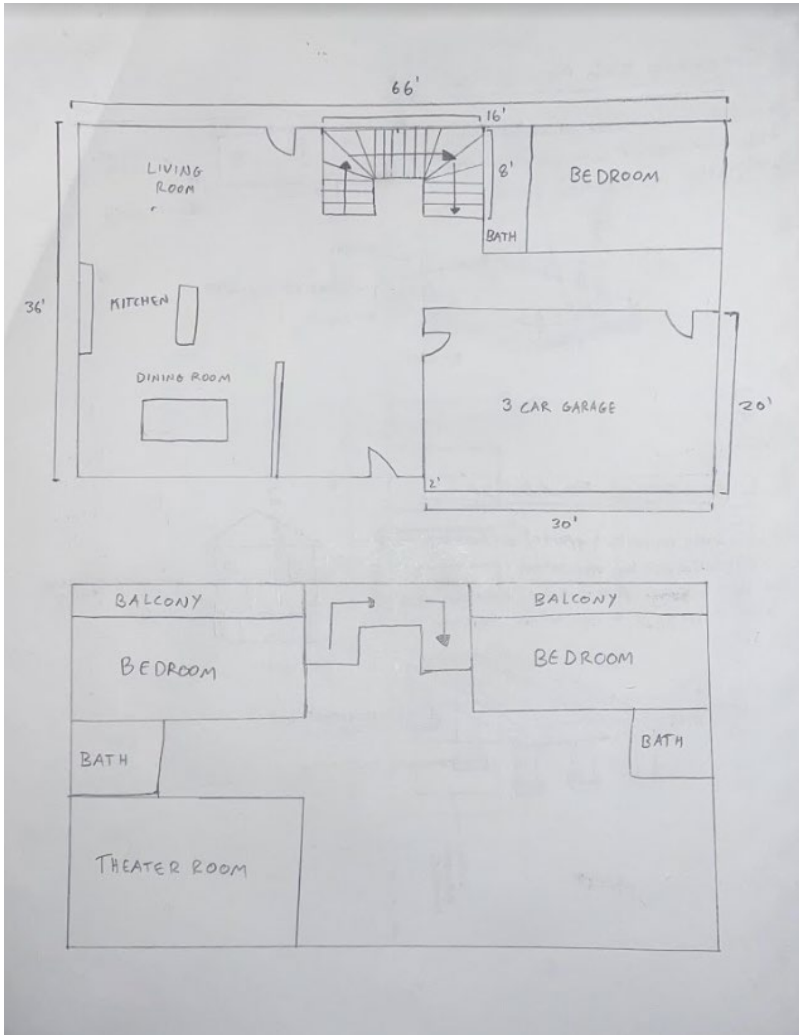

- I will be designing a 2-story, coastal style house
- This model will be using concrete, wood flooring, a wooden exterior, and asphalt shingles.

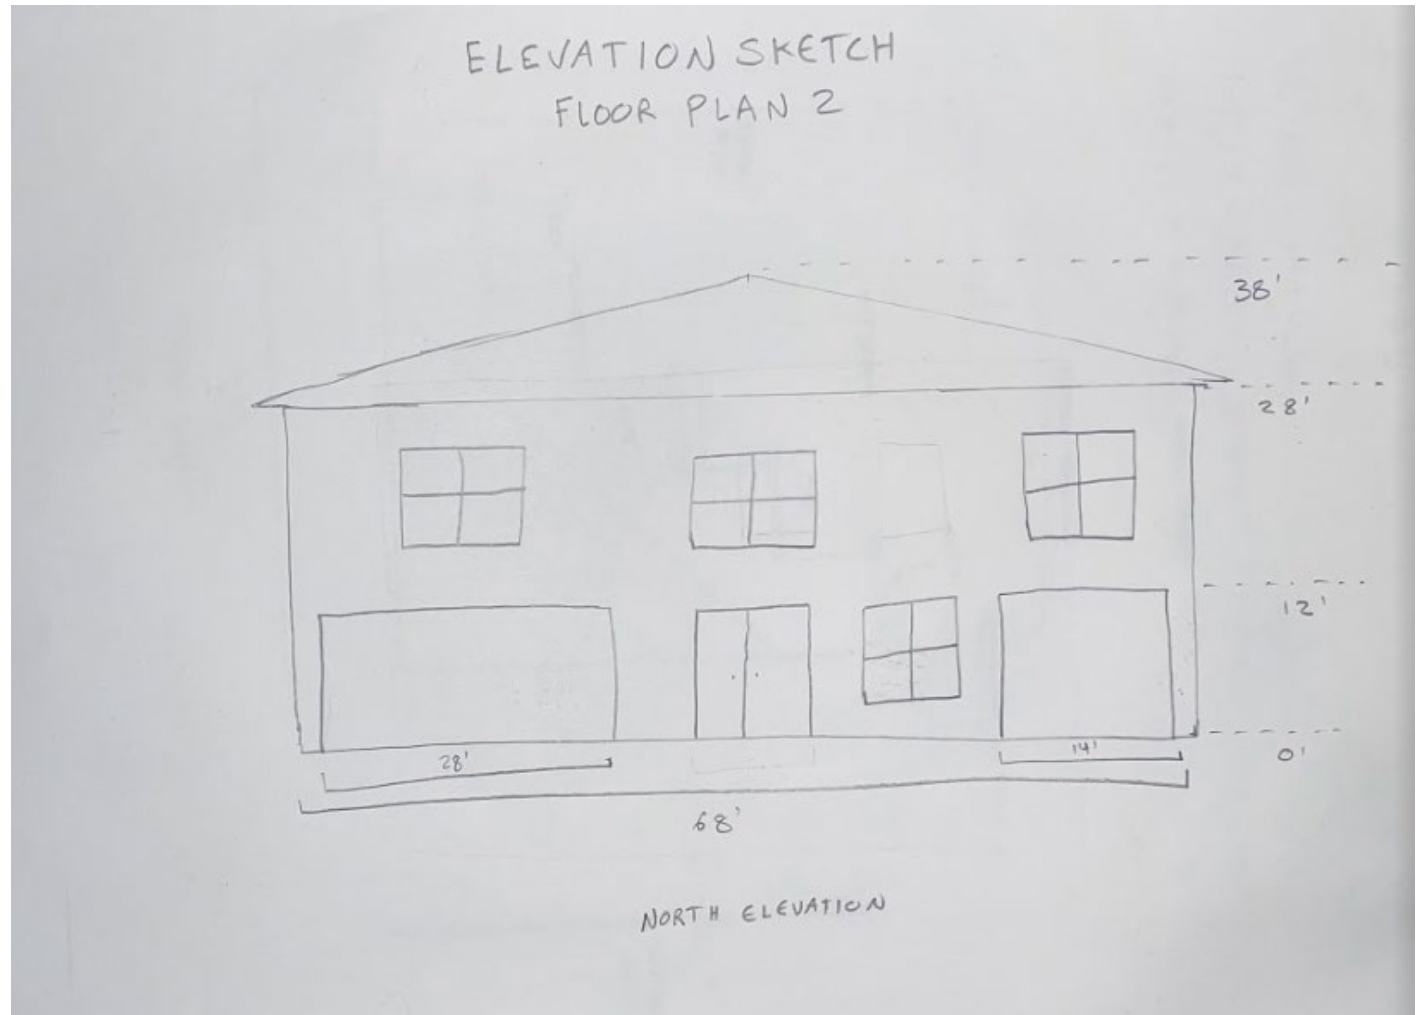

Clients

- My clients are a relatively wealthy family of four. This family wants a large beach house to reside in. They enjoy spending free time outdoors and don't work from home.
- This is a good house because it has a three-car garage, lots of indoor space, as well as a patio, balcony, pool, pavilion, and beachfront view
